

Over the last two weeks I witnessed a remarkable curling clinic organized & taught by Malcolm McDonald to a group of curlers that included four 2 hour sessions. Majority of the curlers were new with a few with 2 to 3 years experience & a few experienced curlers learning how to curl using a stick. I can see without a doubt that this will strengthen our league as to have better senior curlers & to attract new curlers in the future. The league has invested some money for equipment to be used for this clinic & because of the positive feedback from the participants & the success the decision will be made soon to invest some more money for more equipment. I personally would like to thank Malcolm for a job well done.
